# The University

# History

The roots of The Hang Seng University of Hong Kong (HSUHK) stretch back to 1980 when Hang Seng School of Commerce (HSSC) was established, with funding from the S H Ho Foundation, the Ho Tim Charitable Foundation, Dah Chong Hong Limited, several Hang Seng Bank founding directors and Hang Seng Bank Limited. The institution was incorporated as a limited company by guarantee and has been operating independently of any other organisation. From 1980 to 2009, HSSC was a pioneering and leading provider of post-secondary programmes in business and related areas.

In response to the Chief Executive's Policy Address in 2009 which highlighted the growing significance of quality private universities in Hong Kong, HSSC was re-structured in 2010 and became Hang Seng Management College (HSMC), a non-profit private university-level institution registered under the Post Secondary Colleges Ordinance (Cap.320) to offer bachelor's and above degree programmes in diversified disciplines.

In October 2018, HSMC was granted the university title and was renamed The Hang Seng University of Hong Kong (香港恒生大學). HSUHK aspires to be a leading non-profit private liberal-arts-oriented university in the region, recognised for excellence in teaching, learning and research, and for contributions to advancing our society and the world.

HSUHK has five Schools, namely School of Business, School of Communication, School of Decision Sciences, School of Humanities and Social Science, and School of Translation and Foreign Languages, with around 6,700 full-time students and over 210 full-time academic staff members. The University offers a wide range of 4-year bachelor's (honours) degree programmes and master's degree programmes. All these programmes were accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) and recognised by the Governments of the HKSAR, Mainland China and Taiwan.

# The University Mace

The University Mace is about 1.25M in length and 8KG in weight. The head-piece is of gold-plated and is topped by a silver colored reproduction of a blooming flower with a globe in its core. Each of the four sides of the head-piece features the crest of HSUHK. The shaft is made of metal decorated in gold, featuring several corrugated bamboo joints. The base is decorated with clusters of bamboo leaves set in bas-relief.

In designing the mace, the bamboo motif, which characterizes the University's new campus and its furniture, is chosen because of the plant's hardiness, greenness and high tensile strength. In Chinese culture, it is the symbol for a "Confucian gentleman" (*junzi* 君子) – it has "jie" 節 (joint), which is the same *jie* character in "qijie" 氣節 (integrity or moral courage; "spine"); and it is hollow in the core, a metaphor for an open mind without bias or prejudice.

For the top, a globe is placed on the HSUHK crest to indicate the University's global perspective. The four fan-shaped blades surrounding the globe symbolize the University's four desired graduate attributes (iGPS):

**Intellectual Competence (i):** a solid foundation in relevant academic disciplines, and the ability to think critically, to solve problems proactively, and to engage in life-long learning.

**Generic Skills (G):** the development of skills in:

- Languages, in both English and Chinese (Cantonese and Putonghua);
- use of information technology and data analysis;
- interpersonal communication;
- teamwork and leadership.

**Personal Development (P):** self-awareness, ethical values, emotion management, personal effectiveness and character.

**Social Engagement (S):** the willingness to serve the community and a commitment to acting for the betterment of the society.

# The HSUHK “Liberal + Professional” Education Model

Adopting a unique “Liberal + Professional” education model, the University places its highest priorities on quality teaching and students’ all-round development. HSUHK believes the purpose of undergraduate education is not mainly to help students acquire more knowledge and better job prospects after graduation, but also to cultivate their personal values, interests, and competencies. The transformative power of this educational model will facilitate students’ realisation of their full potential.

In our educational model, drawing inspiration from Amartya Sen’s Capability Approach, the “Liberal” education at HSUHK is committed to nurturing students’ freedom to think and thrive in the global village of the 21st century. Our aim is to empower students to pursue their aspirations by fostering core transferrable competencies such as critical thinking, creativity, interpersonal communication/collaboration, human caring attitude, moral reasoning, and social responsibility. “Liberal” also represents a broad and cross-disciplinary approach to connect knowledge domains, facilitate thinking, and solve problems, especially in the University-wide common core curriculum. This enables our students to tackle the complex challenges of their future life/work with confidence and fulfilment.

Unlike most fresh graduates of liberal arts colleges in the West who continue to pursue postgraduate studies, fresh graduates in Hong Kong mostly seek full-time jobs. “Professional” in this model represents the incorporation of professional subject elements in many of our major programmes, which equip students with transferrable professional competencies, professionalism and ethics that are required in future careers options. Additionally, subjects such as business management, sustainability and information technology are essentially seen as liberal arts disciplines, centred on human values.

In our curriculum programme design, there is a good balance of major studies, common core curriculum and free electives with measurable learning outcomes, with ample development opportunities and experiential activities which form students' holistic educational experience. These opportunities and activities include residential college experience, internship, service-learning projects, leadership training, global exchange programmes and independent research, among others.

HSUHK adopts many core liberal arts education elements in its education process. Some distinctive features include:

- A primary focus on undergraduate education.
- Platinum award-winning green campus facilities with extensive bamboo features.
- Innovative degree programmes.
- A cross-disciplinary Common Core Curriculum.
- A Residential College System combining living and learning.
- Interactive small-class teaching.
- Close student-teacher relationships.
- Teachers' guidance and mentorship for individual students in and outside classrooms.
- An Honours Academy, the first of its kind in Hong Kong, dedicated to the incubation of future public leaders.
- Extensive outreach and experiential learning opportunities.
- The "One Student One Internship" scheme, which provides every student full-time internship opportunities local or overseas.

# Desired Graduate Attributes (iGPS)

The University aims to nurture students possessing the following “desired graduate attributes: iGPS”:

**Intellectual Competence (i):** a solid foundation in relevant academic disciplines, and the ability to think critically, to solve problems analytically and proactively, and to engage in lifelong learning.

**Generic Skills (G):** mastery of skills in:

- languages in both English and Chinese (Cantonese and Putonghua);
- use of information technology and data analysis tools;
- interpersonal communication;
- teamwork and leadership.

**Personal Development (P):** development of self-awareness, ethical values, emotion management, personal effectiveness, work attitude and character.

**Social Engagement (S):** willingness to serve the community and a commitment to acting for the betterment of society.

The acronym iGPS also carries the symbolic meaning of “I” and the “GPS”; with “I” referring to the individual student and “GPS” taking on the metaphor of “Global Positioning System”, which can guide the development of the student through the diverse educational experience at HSUHK.

# Undergraduate Curriculum Structure

The University adopts a 4-year curriculum for all bachelor's degree programmes. The Undergraduate Curriculum Structure allows higher flexibility and to accommodate the curriculum structure of all existing undergraduate programmes for all existing and prospective students.

The Undergraduate Curriculum Structure comprises three components, namely Major Studies, Common Core Curriculum and Free Electives. The total number of modules required for graduation varies across individual programmes. Apart from the Major studies, students are required to take 16 - 17 modules under the Common Core Curriculum, on General Education, Languages, Quantitative Methods and IT Skills. Minors are introduced to give students a second focused study area.

Undergraduate students also need to fulfill the following University graduation requirements for graduation:

- Language Competency Exit Requirements for English and Putonghua
- Information Technology Proficiency Requirement
- iGPS Units and College Assembly

Depending on the curricular and requirements of respective programmes, students have to take a combination of core subjects, elective modules and projects to attain specific requirements of the named award for which they are registered, general University requirements and the minimum cumulative GPA requirements, for graduation.

The TPG programmes of the University also adopt a trimester system whereby students can, subject to availability of modules, register at least 2 credits (for part-time students) to 8 credits (for full-time students) of modules in each regular semester.

- 6.4 By the end of the internship, the student should return to the University to resume his/her studies. S/he should settle the tuition fees and complete the necessary registration procedures. If necessary, students may apply for extension of deferment for another semester. Failure to pay the above fees within the stipulated time period will imply that an applicant does not wish to accept an admission offer.
- 22.2.7 All fees are subject to review on an annual basis, and the University reserves the right to revise the fees from time to time. All fees are non-refundable and non-transferable unless otherwise stated.

- 1.6.6 Use of the VeriGuide is mandatory for all modules, except for modules which by their very special nature render the use of the VeriGuide inapplicable, e.g. accounting, interpreting modules, etc.

## 1.7 Procedures for Handling Students Disciplinary Issues

- 1.7.1 Any member of the University community who observes or discovers an academic or behavioural misconduct committed by a student may report the case in writing within **fourteen working days** of the incidence to the School Student Disciplinary Committee (SSDC) of the School by which the concerned module is offered for academic dishonesty cases, or to the SSDC of the School to which the student belongs for behavioural misconduct cases. It rests with the discretion of the SSDC Chairman to accept case reports made beyond fourteen working days of the incident. Anonymous reports will generally not be considered.
- 1.7.2 Once the SSDC received written report of a case, its Chairman will, in consultation with SSDC members if necessary, decide whether there is a prima facie case to conduct a review, or if the report does not have any merit or is ill-intentioned. If the Chairman decides that a review is necessary, the SSDC will set up a Student Disciplinary Panel at School level (SSDP) to investigate the case and to make recommendations for SSDC's consideration.
- 1.7.3 In case that the student concerned or witness(es) is called upon by SSDP to make a presentation, s/he may invite a fellow student or staff member of the University to accompany him/her. However, as SSDP is not a court of law and its proceedings are an internal matter of the University, the student/witness(es) shall not be accompanied by a legal representative. If the student

concerned refuses, or is unable, to attend the meeting of SSDP, SSDP shall review the case based on written evidence without the student's verbal defense.

- 1.7.4 After considering the report and recommendations from SSDP, SSDC may impose disciplinary actions which SSDC deemed appropriate on the student concerned.
- 1.7.5 However, if SSDC considers the case serious and warrants such disciplinary actions as suspension or discontinuation of the student's study at the University, or it considers further deliberation of the case at a higher level of student disciplinary body is necessary, it shall refer the case to the University Student Disciplinary Committee (USDC) for handling.
- 1.7.6 In general, all convicted court cases concerning the behaviour of students that carry a criminal element or may have serious impact to society should be handled by USDC.
- 1.7.7 Disciplinary cases that involved students of more than one School shall be referred directly to USDC for handling.
- 1.7.8 Some academic support and administrative offices may have its own set of rules and regulations for users to observe, e.g. the Library and the Sports Facilities of the Student Affairs Office. In the event that any academic support and administrative offices encounter minor or trivial cases of students' behavioural misconduct, the Heads of the respective office(s) shall determine if the case requires attention of SSDC or USDC. If the Head concerned concludes that the case does not warrant referral to the SSDC/USDC, it is at the discretion of the Head to decide whether or not to impose any penalty to the student.
- 1.7.9 Since the University upholds academic integrity and adopts zero tolerance to academic dishonesty, academic misconduct will not fall into the scope of minor or trivial misconduct in any

case. If an academic dishonesty case is received by the module teacher or academic Department/School, it should be reported to SSDC of the School by which the concerned module is offered for handling according to the procedures set out in S1.7.1 to S1.7.5 above.

- 1.7.10 USDC may impose disciplinary actions which USDC deemed appropriate on the student concerned (except suspension/discontinuation of study).
- 1.7.11 If USDC, after considering all the evidences and statements presented, still decides that the student should be suspended or discontinued from his/her study at the University, it should seek approval from AB for such action.
- 1.7.12 With a view to observing the privacy of the individuals involved, all disciplinary cases should be dealt with strictest confidence.

Student Affairs Office (SAO) plays a crucial role in organising a diverse range of student development programmes and support students in the conduct of activities through the formation of student organisations, including the Students' Union, Student Associations, Residents' Associations as well as student-initiated clubs and societies. Students grow and develop as they put their ideas into practice and promote the uniqueness of their organisations to foster a vibrant campus life.

Among the popular training programmes organized by SAO is the Student Ambassador Programme. This programme provides leadership training to a selected group of visionary students who are dedicated to serving the University. Student Ambassadors act as representatives of the University and engage in various activities such as campus tours, Programme Consultation Day and official university-wide ceremonies. Through their involvement in the programme, Student Ambassadors develop valuable skills in public speaking, teamwork and event management.

Students are also encouraged to participate in a wide range of community services for the underprivileged groups. HSUHK Volunteer Team, Wu Zhi Qiao, Wofoo Leaders' Network and University YMCA are signature programmes and student-led organisations to promote community engagement. With comprehensive training and guidance provided by SAO staff members, students are equipped with essential skills in serving the society.

SAO also fosters students' engagement in cultural groups to develop their talents and artistic mindsets. For example, HSUHK

Sinfonietta & A Capella groups launched their community outreach performances with the support and coaching given by professional conductors.

Encouraging students to participate in community engagement is one of the key approaches to fostering student development. Thematically based community engagement programmes will allow students to gain service experience and apply their knowledge to serve the community.

## **Student Exchange Programme and Other Global Learning Opportunities**

To broaden students' global and cultural perspectives, HSUHK has been actively reaching out to universities in different parts of the world to create exchange opportunities for students. The University has established academic exchange partners with global institutions covering Australia; Asian countries and regions, including India, Indonesia, Japan, Macao, Mainland China, Malaysia, the Philippines, South Korea, Taiwan and Thailand; Europe, including Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Ireland, Italy, Latvia, Lithuania, Monaco, the Netherlands, Norway, Republic of Croatia, Romania, Spain, Sweden, Switzerland, Turkey and the United Kingdom; Canada and USA in North America; as well as Israel and the United Arab Emirates in the Middle East.

The University not only provides financial support to students participating in exchange programmes, but also arranges briefing sessions, integration activities and a buddy system to help build bridges between students of different cultural backgrounds.

Besides exchange programmes during regular semesters, students can also travel abroad to participate in short-term learning programmes in various institutions to learn out-of-classroom during winter and summer break.

## Career Guidance and Local, Mainland & Overseas Internship Opportunities

To prepare HSUHK students for their future careers, the university adopts a comprehensive strategy that incorporates early career planning, practical experience, and thorough job-hunting preparation, ensuring that students not only acquire professional knowledge and skills but also gain the vital experience needed to thrive in the global job market after graduation.

The Early Career Programme at HSUHK offers a holistic introduction to the workplace and career planning. In this programme, students develop an understanding of life and career trajectories through engaging activities such as AI-driven workplace simulations and short-term job tasting schemes. The Data Boot Camps in the programme also equip students with essential data literacy, presentation, and analytical skills, preparing them to excel in the AI and digital era.

To provide students with practical work experience and essential workplace skills, HSUHK offers over 1,500 internship opportunities annually from more than 400 companies, covering not only Hong Kong, but also Mainland and countries across the globe including Australia, Germany, Japan, Singapore, Spain, the UK, and the USA. Career exploration tours further broaden students' perspectives on various industries in Mainland and overseas and include real projects with international companies.

HSUHK ensures that students are well-prepared to enter the job market through innovative resources like the ChatGPT Job Application Preparation Series and a one-stop Career Preparation Platform which help students master crucial job application components such as CV writing, interviews, and aptitude tests. Tailored career consultation sessions further refine students' CVs and interviewing techniques. Meanwhile, a variety of career events, including recruitment talks, Career Connections Day, the HSUHK Careers Fair, and seminars on further studies, are organised regularly to facilitate students' access to the latest career information from the market.

## **Students Achievements**

HSUHK students are energetic and self-motivated individuals who are willing to learn. Under the care and guidance of the University's dedicated academic and teaching staff, and through many exciting and inspiring learning opportunities provided in and out-of-classrooms as described above, our students grow and develop as all-rounded individuals. Their achievements in academic and co-curricular aspects are fully demonstrated by the prizes they have won in various local, regional and international competitions over the past years.

## **Physical Wellness for Students**

Apart from achievements, the SAO also encourages students to explore their talents in different sports. There are 14 sports teams established at HSUHK, including Basketball, Table Tennis, Fencing, etc., under the management of the SAO and professional coaches. The sports teams represent the University in various inter-institutions competitions held by The University Sports Federation of Hong Kong, China and other organisations. The SAO also offers credit-bearing Physical Education modules, provides sports facilities and organises regular activities for students to promote a healthy lifestyle, foster students' interest in sports and create a positive sports culture for the University community.

## **Support for Students in Need**

We are dedicated to promoting diversity and inclusion for students from various backgrounds through campus-wide activities and workshops that address different issues arising during their studies at HSUHK.

## **Academic Support - Personal Tutors and Academic Advisors**

Personal Tutors and Academic Advisors are assigned to students with the aim of providing a supportive network for students to seek help, guidance and assistance throughout their undergraduate studies.

## **Psychological Support — Counselling Services**

If a student experiences psychological challenges, they will be referred to the professional counselors at the Personal Growth and Counseling Unit of the Student Affairs Office (SAO). Students are encouraged to make appointments with counselors for personal issues. Counselors provide support by addressing personal challenges, managing psychological stress, overcoming developmental obstacles, improving interpersonal relationships, and rebuilding confidence. For cases requiring in-depth therapeutic treatment, counselors will refer students to an in-house clinical psychologist or a private psychiatrist for further psychological or medical support.

## **Mental Wellness Initiatives**

The Personal Growth and Counseling Unit of the SAO organizes seminars, talks, and workshops on mental wellness, stress and emotional management, peer counseling, and mental health. These initiatives help students understand their psychological needs and manage their emotions effectively for better mental health.

## **Peer Mentor Scheme**

The Peer Mentor Scheme is a vital group of students trained to promote mental wellness and social care. Peer Mentors, who come from diverse backgrounds, including local, mainland, and ethnic minority students, serve as positive influences and extended networks of support on campus.

## **Support for the students with special educational needs (SEN)**

When students declare their special educational needs (SEN) to the University, the SAO initiates a consultation to discuss necessary accommodation and support. Coordination with relevant departments and support units ensures appropriate assistance is provided.

# Residential Colleges

## A Living and Learning Community

Providing students with living and learning experience in HSUHK Jockey Club Residential Colleges (RCs) is one of the distinctive features of HSUHK's holistic education. The objective of the RCs is to create an integrated "living and learning community" which helps enhance students' communication, self-directed learning and self-management skills, as well as maximize their engagement in academic, social and cultural exchanges through faculty-student interaction and a series of RC life education programmes. It also aims to foster a life-long relationship among residents with their shared residential experience in an environment of mutual respect.

As an integral part of university education and whole-person development for residents, the RCs with four themes, namely cultural diversity (Lee Yick Hoi Lun Mosaic College), healthy living (S H Ho Wellness College), community engagement and service (Patrick S C Poon Amity College) and sustainability (Fung Yiu King Evergreen College), are designed. Each RC is led by a Master and an Associate Master who are academic staff of the University, with the support of RC Tutors who are also academic or administrative staff, to provide pastoral care and guidance to residents.

The University also revitalized the Old Hall inside the campus into an undergraduate residence, which features quadruple rooms. It houses around 120 students at present. In this community of non-local students with different talents, students learn not only about academics, but also the living-learning experience. All residents of the Old Hall were affiliated with one of the four Residential Colleges for whole-person development.
